Features

Multi-Fire® XD Flame Effect
Vivid flames that are brighter and more lifelike day or night, featuring a new multi-layered color effect that creates a sense of depth. Color settings can be controlled independently or combined in one of five presets.

Media Accent Color/Top Light
Customize the fireplace interior by adjusting the media bed and top light - select from a range of preset colors or scroll through Prism mode and freeze on your favourite look.

Modern Media Bed
A stylish multi-media bed includes small and large acrylic crystals with natural-looking driftwood.

Bigger, Better Viewing
Elevate fireplace enjoyment with an impressive 16" (40.6 cm) high viewing area.

Comfort$aver® Heating System
Concealed heater with safe ceramic heat, plus 11% energy savings, warms up to 1,000 sq. ft.

Eco/Heat Boost
Eco reduces the wattage range to maintain a comfortable heat setting, while boost quickly warms a room using maximum heat output for up to 20 minutes.

Air Circulation Mode
A smart feature that moves room air to keep it fresher.

Ambient Light Sensor
Automatically adjusts firebox light to suit the room day to night.

Built-in Timer
Set timer to automatically shut off the fireplace after a preset time, up to 8 hrs.

Heat Management
Enjoy the ambiance of a fire during the warmer months by deactivating the heater via the controls or hard disconnect the heater during installation when heat is not required.

Smart Self-Diagnostics
Integrated smart technology that works behind the scenes to enhance the performance of your fireplace by providing maintenance and operation feedback.

Hardwire or Plug-in
Designed to be direct-wired to a 120 or 240 volt circuit for a seamless look (optional plug kit available).

IgniteXL Bold versus Modular Gas

• Showcase your bold statement of a fireplace with or without the heat – you'll have more heat than you need

• Electric fireplaces convert 100% of input energy to heat, reducing the environmental impact and increasing energy efficiency

• No combustion, no carbon monoxide, front glass that is cool to the touch, and you can even deactivate the heater

• No venting or piping required and the unit can be placed anywhere a standard electrical outlet or connection exists

Front Installation

CAUTION: This fireplace is NOT load-bearing. Ensure the opening for the fireplace is framed in such a way that the weight of the building materials will not create pressure on the top of the fireplace.

NOTE: Wiring is performed at the top right back corner of the firebox. Plan the framing to allow routing the power cable to this location.

NOTE: It is recommended that the bottom of the unit be mounted between 20 in. and 40 in from the ground to maintain an optimized viewing angle of the flame.
