FIREBRICK

Typically made of fire clay or siliceous material, our Firebrick is a refractory brick, capable of sustaining intense heat without fusion. And since it's not prone to expansion or contraction, this material helps minimize cracking under extreme heating conditions.

Firebrick is available in either tumbled or square-edged styles, in either red or beige colors. Coloration and size varies slightly.

Colors

beige

red

Common Patterns

herringbone

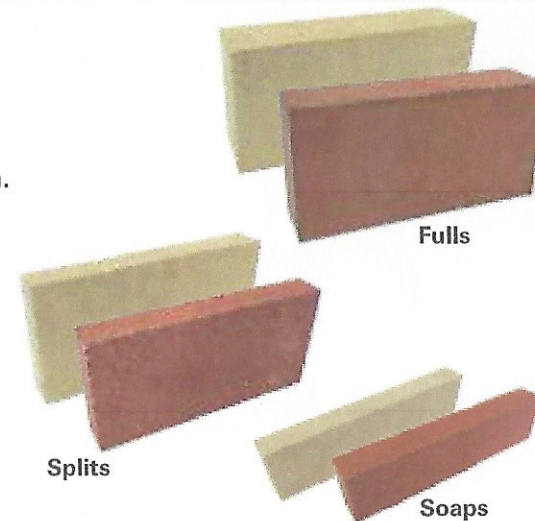

stack bond

basket weave

running bond

Splits

Fulls

Soaps

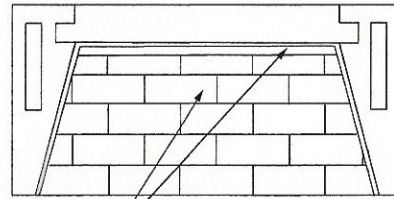

There are three standard Firebrick sizes:

Fulls: 9" x 4 1/2" x 2 1/2"

Splits: 9" x 4 1/2" x 1 1/4"

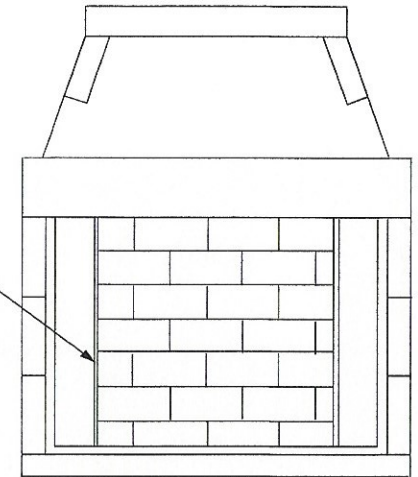

Soaps: 9" x 2" x 1 1/4"

INSTALLING FIREBRICK

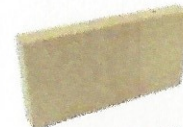

FIREBRICK FLOOR AND BACKWALL (BUILT FIRST)

1/4" - 1/2" EXPANSION GAP (BOTH SIDES)
