Custom Firebrick  
Herringbone Pattern  
Vented Gas Log Set

## *Setting* THE STANDARD *among fireplaces*

Make your ideal dream home a dream come true with Isokern's Standard Series. As the first Isokern modular fireplace introduced in the United States, the modular construction of the Standard Series allows you to unleash your creative desires with a fireplace as unique as you are. Whether you choose wood burning or gas, indoor or outdoor, the Standard Series sets the standard.

## *Insight into our technology*

Extracted from Iceland's Mt. Hekla volcano, Isokern products are made from the cleanest, purest pumice. Manufactured in the United States, our masonry components cradle the raw power of fire in the safest, most energy-efficient material on earth. Isokern allows architects and their clients to pursue their most inspired designs, while connecting with the natural beauty of fire in a way that, until now, only nature could.

**IMPORTANT NOTES:** As with any heating appliance, fireplace or stove, this fireplace is extremely hot during operation. Read and understand all operating instructions before using this fireplace. For further information, consult your dealer. Local conditions, such as elevation, wind, vent configuration and choice of fuel will affect overall appearance of the fire and heating performance. Performance can also vary with home design and insulation, climate, condition and type of fuel used, appliance location, burn rate, accessories chosen, chimney installation and how the appliance is operated.

Diagrams, illustrations and photographs are not to scale - consult installation instructions. Product designs, materials, dimensions, specifications, colors and prices are subject to change or discontinue without notice.
