

#J30-500 LOG SET

NOTE: Log numbers are located on the bottom of each log. Refer to the following instructions and illustrations for proper log placement. Your components may look different than the ones shown.

CAUTION: Do not place logs directly over burner port holes. Improper log placement may affect flame appearance, and may cause excessive soot to build upon the glass.

1. Place the ember panels behind the front burner ports as shown below.
2. Align the holes in the bottom of logs J30-1 and J30-2 with the

mounting pins on the back burner. Push to seat.

3. Align the holes in logs J30-3 and J30-4 with the pins on the bottom refractory clips, as shown below.
4. Position log J30-5 over the two ember panels as shown below.
5. Align logs J30-6 and J30-8 with the notches on the base logs, as shown below.
6. Align log J30-7 with the notch in log J30-5 as shown below.
7. Use a stiff or steel bristle brush to distribute rockwool embers onto the burner and logs.
