ADD A DISTINCTIVE MANTEL OR MANTEL SHELF TO YOUR FIREPLACE

MANTEL SHELVES AVAILABLE IN
5 FOOT AND 6 FOOT WIDTHS

SURROUND YOUR FIREPLACE WITH THE NATURAL BEAUTY OF WOOD OR STONE

Enhance the aesthetics of any room by finishing your fireplace with a non-combustible concrete mantel and surround. Inspired from the inherent beauty of century-old barns and structures these Mantels look like authentic wood or stone but are designed to withstand the heat of your fireplace.

These Mantels are meticulously handcrafted using patented, lightweight concrete to replicate the look of reclaimed wood and stone. Industry first, non-combustible mantels are designed to divert heat away from TVs, electronics or artwork that sit above the fireplace so mantels can be installed lower and closer to the fireplace than their real-life counterparts.

CREATE YOUR CUSTOM FINISH

With the look of authentic stone or wood, non-combustible concrete mantels and surrounds can be installed lower and closer to the fireplace than their real-life counterparts. That gives you the flexibility you need, with no “mantel clearance” concerns for artwork or wall-mounted televisions. Thanks to these Mantels, you can bring any fireplace installation to a beautiful, custom finish.
