

FLEX 50BY

BAY FIREPLACE

Clean Burning

Fueled by clean burning
e-NRG bioethanol

Single Room Application

Bay fireplaces feature three open
sides - view the flame from the front
and both sides.

Global Compliance

These models comply with
existing standards in the USA,
Europe, UK and Australia.
UL Listed, EN 16647 BSI
Certified, ACCC Safety
Mandate compliant.

Toughened Safety Screen

Your Flex Fireplace features
toughened glass to stabilise
the flame in windy conditions
and provide an additional layer
of safety and comfort. The
Integrated windscreen sits flush
behind the frame.

Decorative Side Box

When a decorative box is
added, the panel between the
standard fire and the decorative
box is glass.

Luxurious Finish

Available in a timeless black finish, Flex
Fireplaces come with stainless steel
burners and black glass charcoal.

Built to Last a Lifetime

Zinc sealed steel construction powder
coated with super hi-temp black paint
prevents rusting so all fireplaces can
be used both indoors or outdoors.

Decorative Steel Log Sets (sold separately)

EcoSmart Fire offers non-combustible logs as an
optional, eye-catching accessory for models with the
decorative side box. Made from stainless steel with a
patina finish, they are available in different finishes.

**Decorative logs must NOT be placed directly over an
open flame. They are designed to sit near heat but not
over flames.*

Zero Clearance

Self-contained, zero clearance construction allows your Flex
fireplace to be framed into wood or metal studs, providing
installation freedom and flexibility for builders, architects,
interior designers, landscapers and homeowners.

OPTIONAL ACCESSORIES

Decorative
Steel Logs
